

Patented GPS SmartSole™

The "Where" in Wearable Tech

- Comfortable, ergonomic insoles fit most shoes, sizes 6-14 Mens & Womens
- Water Resistant, Anti-Friction Fabric wicks moisture away from the foot
- Trackable through the web-based GTX Monitoring Portal or App
- Locate on demand, check battery status, speed & bearing, and generate reports
- Wireless inductive charging , 3.7 V Li-ion rechargeable battery lasts up to 5 days
- Motion sensor (sleep mode) provides maximum battery efficiency
- No ON/OFF switch, always on, always with you
- Customizable alerts such as low battery notification and geozone perimeter breach can be sent to multiple caregivers and are included under the monthly portal service plan
- Depending on the service plan, GPS SmartSoles can update their location every 5, 10, 30, 60... minutes
- Quad-band GSM/GPRS module for coverage across 200+ GSM networks (*localized Int'l SIMs supported*)
- Backend portal supported by RESTful API and supports private label branding
